

Product code: 419275

DOMACRYL 840 52 T

Thermoplastic Acrylic Resin

Specification:

Property	Range	Method / According to standard
Non-volatile matter	51 - 53%	MH1155 / ISO 3251
Acid value on solid resin	5 - 10 mg KOH/g	MH1051 / ISO 2114
Viscosity, 23 °C	3200 - 3700 mPa·s	MH1007 / ISO 3219
Colour	max. 200 APHA	MH1125 / ISO 6271

Typical properties:

Property	Value
Tg	69 °C

Remarks:

Solutions in Toluene and Butylacetate are also used for road marking paints.

Solubility:

- » Soluble in aromatic hydrocarbons, esters and ketones.
- » Limited solubility in aliphatic hydrocarbons and higher alcohols.

Compatibility:

Compatible with plasticizers, vinyl resins, nitrocellulose, modified alkyd resins, acrylic resins and chlorinated rubber.

Applications:

- » Domacryl 840 52 T is an air drying polyacrylic resin, developed mainly for the preparation of pigmented and transparent paints for metal.
- » Because of its low solution viscosity is an ideal product to upgrade solution vinyl, chlorinated rubber and cellulosic systems in durability, heat stability, hiding power and drying time.

Storage:

The resin should be stored indoors in its original, unopened and undamaged container in a dry place at storage temperatures below 35 °C, for up to 24 months. Exposure to direct sunlight should be avoided.
